## ANNUAL REPORT 2021-22

Sometime in the second week of March 2020 the state governments across the country began shutting down schools and colleges temporarily as a measure to contain the spread of the novel coronavirus. With no immediate solution to stop the outbreak of the pandemic, colleges remained closed for months, which affected the teaching learning process.

Though the two-year lockdown had brought everything to a standstill, we at DBMS College Of Education moved forward quickly and responded to the threat so that our students could continue their progress in terms of their learning outcomes. We have come out with various initiatives to respond to Covid 19 challenges so that the delay in our academic schedule is minimized without impacting the studies for students.

The academic session 2020 -22 which was to start in July 2020 was delayed by almost 10 months and we could start our classes in 2021 March due to the pandemic. The admission process was completed by the Jharkhand Combined Entrance Examination Board with five merit lists sent by them in long intervals .The students came to college very hesitatingly. It was a challenge to convince them to attend regular classes. We began orientation of this batch on 22nd March 2021. A number of events were organised offline and online throughout the year.

Within the given constraints, an elaborate internship programme was planned and rolled out for students. Some of the significant steps taken were as follows:

- Conducted online classes as starting point to understand technical and other concerns of students to deliver online lessons.
- Teachers prepared a separate time table for online classes and followed the schedule for the session 2019-21.
- Tele and group counselling was provided to students during the pandemic.

Faculty Development Programme was organized which included the following sessions:

- Re-orienting Internship Practice: Understanding School Experiences of Covid-19’.
- Use of Tools in Online Teaching’ by Dr Manoj Kumar
- Lecture on ‘Managing Online Classrooms’ by Sangeeta Ravi

All sessions were recorded for referencing purposes if needed. Stationary was converted into soft copies and were customized to suit online teaching. Students could collect hard copies from college if they wished to. Online guidance was organized. Librarian Nickey Singh shared PDF of important chapters online.

The college organized various webinars and workshops in association with renowned resource persons throughout the year. The workshops ranged around various subjects of communicative English , storytelling, art and painting etc.
