REPORT ON RIVER CLEANING

RIVER CLEANING DRIVE

DATE- 7/10/23

VENUE- Domuhani Ghat near marine drive

Objective- To clean the Domuhani Ghat area.

Learning outcomes:-

- Participants become aware about the environment and the challenges and degradation faced by it.
- it fosters a sense of community and teamwork as people come together towards common goals.
- it instals a sense of stewardship for the river and its surrounding area.
- river cleaning drives involve educational components like providing opportunities for learning about water quality , river, water pollution, and environment science etc.
- awareness about health and hygiene was also instilled in the students.

The members of Eco club along with students of b.Ed batch 21 -23 and 22-24 , teaching and non teaching staff went for the river cleaning drive to Domuhani Ghat, Marine Drive Kadma at 8:30 a.m. on 7/10/23. The drive was in collaboration with JNAC who was also responsible for the disposal of the waste collected. JNAC team provided us with gloves masks, sanitizers ,rods and brooms for cleaning the Ghat. Our students cleaned the river area and collected all the waste. The drive went on for 2 hours. Our cleaning inspired the nearby people who were doing Pooja in the Ghat to clean the area after their business.

The cleaning drive promotes awareness of the importance of clean water source and the role rivers play in providing water to the city. As dengue is also on the rise in Jamshedpur area our drive inspired and motivated the students and also the near by people to keep the surrounding water body clean. The river cleaning drive empowered our students to become informed, proactive and responsible stewards of their work towards natural surroundings.
