Teacher.” With her vast experience and wisdom, she captivated everyone present and left a lasting impact on our minds. She introduced us to a powerful formula that every aspiring teacher should follow—**ASK**, where:

A stands for Attitude

S stands for Skills

K stands for Knowledge.

She emphasized that an ideal teacher is one who maintains a positive attitude, constantly works on developing relevant teaching skills, and keeps their knowledge updated. These three components together form the foundation of an excellent teacher. She shared her personal journey of how she, with patience, resilience, and hard work, rose to become the principal of a reputed school in Jamshedpur. Her talk was not only motivational but also a testament to the power of perseverance and self-belief.

One of the key takeaways from the session was her strong emphasis on self-confidence. She urged everyone to believe in themselves and explained that confidence can be developed gradually by cultivating the habit of reading regularly. She stated that reading not only enhances our knowledge but also opens doors to growth and success, as knowledgeable people naturally rise to greater heights in life.

Another crucial aspect she touched upon was gratitude. According to her, cultivating a sense of gratitude can transform one’s mindset and improve overall well-being. She suggested a simple yet powerful exercise—writing down three things you are grateful for every day. Practising this regularly for 21 days, she said, would bring noticeable changes in our attitude and perception of life.

She beautifully reminded us that teaching is a blessed profession, where teachers are cherished by their students forever. It is a noble duty, as a teacher holds the power to shape a child’s future.
