REPORT

Title of The Programme	: National Seminar On "Spiritual Intelligence for Humanistic and Holistic Education: Role of Prospective Teachers in the Changing Context"
Date	: 05-04-2025
Venue	: Rambha College of Education, Gitilata

INTRODUCTION

At a seminar held at Rambha College of Education on 5th April, Mrs. Archana Kumari, Assistant professor presented the research paper on the topic "भारतीय ज्ञान परंपरा एवं आध्यात्मिक बुद्धिमत्ता". The objective of this seminar was to understand the significance of Indian knowledge system and spiritual intelligence and discuss its various aspects. Keynote speakers Doctor Ramakant Mahallik, Guest of Honour Dr Vibha Pandey, Guest speakers Dr. Sanjeev Anand, Dr Veena Singh Priyadarshi, Dr. Sanjay Kumar Gorai and Dr. Haripriya Panda, all presented their views on spiritual intelligence for humanistic and holistic education.

CONTEXT

The main objective of drawing from our past and integrating the Indian Knowledge Systems is to ensure that our ancient systems of knowledge represented by unbroken tradition of knowledge transmission and providing a unique perspective (Bhāratiya Drishti) is used to solve the current and emerging challenges of India and the world.

The IKS is to be incorporated in scientific manner in the school and higher educational curriculums. This would include tribal knowledge and indigenous and traditional ways of learning and will cover and include mathematics, astronomy, philosophy, yoga, architecture, medicine, agriculture, engineering, linguistics, literature, sports, games, as well as governance, polity and conservation.

The policy recognizes that the knowledge of the rich diversity of India should be imbibed first hand by learners. This would mean including simple activities, like touring by students to different parts of the country, which will not only give a boost to tourism but will also lead to an understanding and appreciation of diversity, culture, traditions, and knowledge of different parts of India. Towards this direction under 'Ek Bharat Shrestha Bharat', 100 tourist destinations in the country will be identified where educational institutions will send students to study these destinations and their history, scientific contributions, traditions, indigenous literature, and knowledge, etc., as a part of augmenting their knowledge about these areas.

In order to realize these goals of NEP 2020, a number of activities have been undertaken by the Ministry of Education, Regulatory Bodies (UGC & AICTE) and HEIs.

OBJECTIVES

- To understand the significance of Indian knowledge tradition and spiritual intelligence.
- To discuss its various aspects and their impact.
- To explore how this knowledge can be applied in modern life.

PROCEDURE

During the seminar, Archana Kumari presented the research paper, which discussed various aspects of Indian knowledge system and spiritual intelligence. She drew upon ancient texts and scholars' insights to delve deeper into the subject.

This research paper, presents the ideas related to spiritual intelligence. Spirituality is a word that causes curiosity in people's minds. For many people, spirituality refers to God, religion, customs etc. They understand that spirituality has no connection with practicality, but it is not so. Spirituality means what is true should be taken naturally. We can enlighten our soul by living in our own home, renouncing all our mental weaknesses, stabilizing ourselves at the internal level, following the order received from within. The life of a spiritual person is always governed by internal consciousness. Various scholars such as Shankaracharya, Ramakrishna Paramahansa, Lord Mahavira, Gautama Buddha and Guru Nanak gave their thoughts about spiritual intelligence. In this research paper, it has been explained in detail about the contribution of India's mythological texts about spiritual intelligence like Bhagwat Gita, Upanishad, Ved, Brahma Sutra, Yoga Sutra etc.

Research scholars and assistant professors of various colleges also presented their research papers.

OUTCOME

After the seminar, participants gained a deeper understanding of the topic and appreciated its significance. The seminar helped raise awareness about Indian knowledge system and spiritual intelligence.

CONCLUSION

Indian knowledge system and spiritual intelligence can play a vital role in enriching our lives. The seminar provided a platform to discuss this topic and understand its importance, highlighting its relevance in contemporary times. By facilitating robust discussion and comprehensive understanding, the event successfully illuminated the profound and enduring relevance of ancient wisdom and traditions in navigating the complexities of modern times, particularly in the context of preparing prospective teachers for a future where education must be both humanistic and deeply rooted in values. The seminar reinforced the idea that integrating spiritual intelligence can lead to a more balanced, purposeful, and compassionate educational experience for all.
