## WATER CONSERVATION POLICY

### INTRODUCTION

Although the college is situated in a prime urban location of Jamshedpur, where there is no water scarcity, but the students are made aware about water conservation policy of the college in the beginning of the course during the orientation programme. The students should realize that every single drop of water is very precious and should be utilized with ultimate care and not to be wasted.

### STATEMENT

D.B.M.S. College of Education is committed to conserve water resources and practice rainwater harvesting in order to replenish and recharge ground water resource.

### Objectives

- To ensure clean and safe drinking water to the people present in the campus
- To ensure continuous supply of water throughout the year
- To replenish ground water through rainwater harvesting •

To minimize wastage of water in the campus

### Action Plan

1. The institution has a good storage capacity of 25750 litres of water for cleaning and drinking purposes.
2. Rainwater harvesting pit is also there for collecting rainwater. Rainwater harvesting pit is monitored regularly and students are made aware about the concept of rainwater harvesting and its importance as part of NSS activities. The rainwater thus collected in the pit helps to replenish the ground water table.
3. Students are given awareness on conservation of water throughout the year.
4. The college maintains leak proof water fixtures.
5. Immediate measures to deal with water leakage through taps, pipes, tanks, toilet flush etc.
6. Installing sensors in the taps in the washrooms for minimizing water wastage.
7. For wastewater management the staff and students are advised to minimize water wastage by turning off taps when washing their hands and report any leaking taps. Every effort is taken by the staff and students to reduce wastage of water in mess, canteen and washrooms.
8. There is availability of proper functional drainage system in the college.

## Education and Awareness

- Organize workshops and campaigns to educate the college community about water conservation practices.
- Integrate water conservation topics into the curriculum to foster a culture of sustainability.

## Compliance

- All members of the college community are expected to adhere to this policy.
- Non-compliance may result in disciplinary measures as per college regulations.

## Review of Policy

This policy will be reviewed annually to ensure its effectiveness and relevance in promoting water conservation.

## Conclusion

D.B.M.S. College of Education is committed to sustainable water management and conservation. Through the implementation of this policy, we aim to safeguard this precious resource and promote responsible water use within our community.
